Description

Serena remote-controlled shades offer the beauty, luxury, and quality of a Lutron motorized shade at a more affordable price. Available in insulating honeycomb and roller styles, Serena shades offer a wide variety of fabric colors and textures, for complete design customization.

These ultra-quiet window coverings install and operate without wires, and feature industry-leading battery performance. At the touch of a button, shades operate in perfect unison, and can even be controlled from anywhere in the world using the Lutron App and Smart Bridge.
